MEMORANDUM FOR: Assistant Director, OSA
Deputy Assistant Director, OSA

SUBJECT : Summary of OSA Activities for Week Ending
28 August 1963

OX CART

1. Regarding the fuel problem [REDACTED] AFIGO-S has advised that a special order of PF-1 fuel is being procured from the Mobile Oil Company (200,000 gallons), and should arrive [REDACTED] on approximately 29 August. It is suggested that this PF-1 fuel not be mixed with the other PF-1 fuel [REDACTED] and that a sample be analyzed at the Wright Patterson AFB fuel lab as soon as it arrives.

2. The AD/OSA has requested that AFIGO-S provide us with the Officer Selection Folders and the current flying hour breakdown for 20 A-12 pilot nominees to be assessed in order to establish an A-12 pilot nominee pool of 3 or 4 additional pilots for our OXCART program.

3. All three new flight test suits received [REDACTED] this week for OXCART pilot #55 were too small. Their experience with fittings with David Clark suits has been consistently poor and in this instance a tailor-made suit was received which appears to have been made for a man many sizes smaller. This has been a continuing problem since the beginning of the OXCART program [REDACTED] officials wish for some guidance in solving this situation.

PERSONNEL

The AD/OSA submitted a paper to the DD/SET this week explaining our personnel strength posture. This paper was submitted as a result of a cut in the positions requested by OSA. Of the [] positions requested, we were granted [] making our total strength [] instead of the proposed []. It is estimated that we will reach the [] figure through current recruitment about 1 January 1964 and that by June 1964 we will
